Thanks Doctor Clifford and staff!

Your office is so much more than a great place to receive chiropractic care.

It's a wonderfully friendly and warm place to visit ... not to mention extremely well run.

I feel better just walking in the door!
thanks again!

I started seeing Dr Clifford after months of 'self-help' did not resolve severe ^{almost constant} hip pain & burning/stabbing sensation that ran from my hip down the back of my leg to my knee. I had tried weight loss and ^{daily} exercise, but nothing releaved the pain. After only a few visits with Dr Clifford over a couple of weeks I had significant relief, and regular visits help maintain the feeling of well being. I now walk about 5 miles a day and only feel pain when I overdo it.

Thank you

I suffered for many years with very horrible back pain. I had gone to a few other places, but I didn't feel the relief or understanding I needed. After my first visit to Dr. Clifford I could tell I would be back. The staff is amazing! They always help you get in for an appointment without questioning me and they are extremely friendly! I definitely recommend this office to anyone looking for a wonderful place to get the relief they need!
